

Spa & Wellness

In the Anzère Spa & Wellness centre, you will experience a magical moment of relaxation against the backdrop of the majestic summits of the Valais Alps.

Built in 2011, the Anzère Spa & Wellness centre is open all year round, thus completing the resort's offer. The Pool Area will delight the whole family. Children are welcome and admission is free of charge up to the age of 6. The Wellbeing Area and its state-of-the-art facilities are, on the other hand, reserved for adults who will be able to relax in peaceful atmosphere. Our therapists and aestheticians propose numerous treatments and massages. Free entertainment is also regularly organised in the establishment. In Anzère, we care about the environment. As a result, the Anzère Spa & Wellness centre is heated ecologically by pellets in the largest wood-fired heating plant in Europe. This system leads to a saving of more than 1.5 million litres of central heating per year.
